Something about yourself:

My educational background is in computer science and my domain is web development in Python/Django framework. I did a course on full-stack development from udemy. In this course, I covered Html, CSS, bootstrap, basic JavaScript, python, and Django. During the course, I developed some tiny websites as a course project. I want to persuade my career in this field and my Final Year Project is also in Python/Django. That's why I am interested in this position.

Email:

Respected Hiring Manager!

Your job posting on LinkedIn for a Python/Django Intern piqued my interest. Your description of the work responsibilities for the Python/Django Interns role closely matches my expertise, and so I am excited to submit my resume to you for your consideration.

I want to persuade my career in this field and my Final Year Project is also in Python/Django. That's why I am interested in this position.

My resume is attached. If I can provide you with any further information, let me know.

I look forward to hearing from you. Thank you for your consideration.
